DATA ENGINEERING · BACKEND DEVELOPMENT · AUTOMATION

Fredrik Nilsson

Data Engineer / Backend Developer

Software engineer with more than 20 years of experience in databases, Python, integrations, backend development, test automation, and enterprise software solutions.

Contact me LinkedIn Download PDF

Based in: Helsingborg, Sweden

Focus: Data platforms, backend systems, integrations

Core technologies: Python, SQL, PL/SQL, Oracle, Google Cloud

Professional profile

Technical experience across the full application lifecycle.

About me

I am a software engineer with a strong technical interest and experience from requirement analysis and specification through development, testing, implementation and application maintenance.

My main areas are data engineering, database development, backend systems, integrations, and test automation. I enjoy learning new technologies and improving the quality, performance and maintainability of software solutions.

Expert areas

SQL · PL/SQL · Python · Pytest · Pytest-BDD · Oracle · Google BigQuery · Google Cloud · REST APIs · Database design · Integrations · Test automation · Requirements analysis · Backend development

Professional experience

Selected projects and responsibilities.

2023

Data Engineer

Knowit

Created ELT/ETL pipelines from Splunk and BigQuery into BigQuery. Implemented scheduled data copying, aggregation, and transformation between projects for service-level and system availability KPI reporting.

Tools: Python, Google BigQuery, Google Cloud Functions, Pub/Sub, Cloud Scheduler, Secret Manager, VS Code

2020–2022

Test Automation Engineer

Knowit

Created a test framework supporting teams that wrote and automated test scenarios for IKEA's order management system. Helped reduce release testing time from approximately two to three weeks to two to three days.

Tools: Python, Pytest, Pytest-BDD, OpenShift, VS Code, Git, GitHub, Confluence, Jira

2019

Automation Engineer

Knowit

Created a REST API for exposing valid test data to different teams and developed a Slack bot for retrieving test data.

Tools: Python, Flask, Docker, OpenShift, VS Code, Git, GitHub, Slack

2017–2018

Data Specialist / Coordinator

Knowit

Developed SQL scripts to help test-data teams select valid data from systems connected to web backends, order management, and warehouses. Coordinated data setup, validation, transfer, and processing.

Tools: SQL, Python, VS Code, Git, GitHub, Confluence

2016

Java Developer

Knowit

Migrated an enterprise system from Struts to Struts2.

Tools: Java, Struts2, Eclipse

2010–2012

Lead Developer

IKEA IT AB

Designed and helped develop an integration solution between RIX (IKEA's centralized retail information system) and IBM WebSphere Commerce. Responsible for solution design and technical development leadership.

Tools: Java 1.4, Java 5, Spring, Hibernate, Toad for Oracle, Eclipse, Rational Software Modeler

2009

Database Developer

IKEA IT AB

Refactored and optimized database business logic batches written in PL/SQL. The result included thousands of fewer lines of code, more than 50% improved performance, and better maintainability.

Tools: SQL, PL/SQL, Toad for Oracle

2007–2008

Backend Developer

IKEA IT AB

Developed the server and backend components of a sales-space planning tool used when planning new stores or rebuilding existing stores.

Tools: Java 1.4, Spring, Hibernate, Toad for Oracle

2001–2007

Software Developer

IKEA IT AB

Worked on new development, further development, and second-level support for backend solutions serving the old and new IKEA.com websites.

Tools: Java 1.4, SQL Navigator, Toad for Oracle, Oracle Designer

1999–2000

Software Developer

IKEA IT AB

Developed integration solutions between IKEA legacy systems and a purchased marketing system.

Tools: SQL Navigator, Toad for Oracle, BusinessObjects Designer

1995–1998

Software Developer

IKEA IT AB

Worked with development and second-level support for a system handling budgeting, sales follow-up, pricing, and product management.

Tools: Oracle ReportWriter, Oracle Forms, Toad for Oracle, BusinessObjects Designer, SQL*Plus

Occupational experience summary

Organization	Years
Pure IT South AB	2024–2025
Knowit	2017–2024
IKEA IT AB	1995–2012
Lantmäteriet	1991–1992
Stadsingenjörskontoret Kristianstad Kommun	1989

Education and certifications

2016

Fullstack Developer

Lexicon Malmö

1995

Systemvetarlinjen

Lund University

Certifications and training

- Google Cloud Certified Professional Data Engineer
- Google Cloud Certified Associate Cloud Engineer
- Fullstack development: Git, GitHub, SQL, PL/SQL, HTML5, CSS3, JavaScript, jQuery, Bootstrap, Java, Scrum, ISTQB
- IBM WebSphere Commerce V5.6 Implementation
- webMethods Integration Workshop
- Servlet and JSP Development for WebSphere
- Programmering med Enterprise JavaBeans (SL-351)
- Från strukturerad programmering till java programmering (SL-265)
- BusinessObjects Designer
- Oracle PL/SQL
- Oracle SQL and SQL*Plus

Let's connect

Available for opportunities involving data engineering, backend development, integrations and automation.
